

Timothy Maurer

Low-Code Developer & Lead UX Designer

Award-winning, Dutch, UX/UI designer & low-code developer with 12+ years experience. Over the years, he has helped design and build hundreds of websites and (web)apps for some of the best brands in the world.

Previously, he co-founded and co-led Naam Agency from 2010 to 2022, where he, as Digital Creative Director, helped Naam grow to become a successful, user-focused digital agency. Working for clients such as ING, Nationale Nederlanden, SAAB, Westeria and many more.

Experience

Freelance Low-code Developer
2022 - current · Utrecht, The Netherlands

Providing freelance low-code solutions in Webflow, Framer, Mendix and Bubble for clients.

Creative Digital Director & Low-Code Developer at Naam Agency
2017 - 2022 · Utrecht, The Netherlands

Overseeing all UX Design, client contact, strategy workshops, company culture and company marketing. Bridging the gap between internal design and development teams, and validate hypotheses with low-code (prototype) solutions.

Lead UX Designer at Naam Agency
2014 - 2017 · Utrecht, The Netherlands

Implemented a User-Centered design philosophy. Focused on UX design, motion, and prototyping. Also, mentored and inspired a team of UX designers and interns.

Co-Founder & Digital Designer at Naam Agency
2010 - 2014 · Breda, The Netherlands

Implemented Digital Design as a main focus for Naam Agency. Tasks incl. digital design for websites and apps, networking, client contact, design and hand-off optimization to external development.

Education

Visual Communication (Cum Laude) at St.Joost (Avans University)
2008 - 2011 · Breda, The Netherlands

Graduated Best of Class · Nominated for Best Thesis · Featured in Items Magazine 'Best Graduation Projects' edition.
